

SUJAY S

ASPIRING DATA ANALYST AND BUSINESS INTELLIGENCE SPECIALIST

Tirunelveli, Tamil Nadu | +91 81221 41673 | info.sujays@gmail.com | [LinkedIn](#) | [GitHub](#) | [Digital Profile](#)

PROFESSIONAL SUMMARY

Aspiring Data Analyst and Business Intelligence Specialist with a strong foundation in data visualization, predictive modeling, and automated reporting. Proven track record of transforming complex datasets into actionable business insights using Power BI, Excel, and Python. Adept at building real-time dashboards, analyzing key operational metrics, and engineering predictive models to drive data-backed organisational decisions.

EDUCATION

B.Tech Artificial Intelligence & Data Science (Minor Specialization in Business Intelligence)

Francis Xavier Engineering College, Tirunelveli

CGPA: 8.72/10.0 (Upto 5th Semester)

Expected Graduation: 2027

HSC | La Chatelaine Junior College, Chennai (CBSE) | 68.8% | Year of Completion: 2023

SSLC | La Chatelaine Junior College, Chennai (CBSE) | 79.4% | Year of Completion: 2021

TECHNICAL SKILLS

- **Data Analysis & Business Intelligence:** Power BI, Advanced Data Synthesis, Predictive Analytics Visualization, Data Visualization
- **Data Analytics Tools:** Excel (Advanced), NumPy, Pandas, Matplotlib, Predictive Modeling
- **Dashboards & Platforms:** Flask Live Dashboards, SCADA Analytics Integration, Tinkercad, MS Office Products
- **Core Competencies:** Algorithmic Logic, KPI Tracking, Reporting Automation
- **Data Processing Languages:** MySQL, Python, HTML, CSS

PROFESSIONAL EXPERIENCE

Srishti Innovative PVT. LTD | Thiruvananthapuram, India

AI + IoT Intern

December 2025 – January 2026

- Engineered a secure stock analytics model using predictive ML ensembles, improving market trend forecasting accuracy by 14% over baseline models.
- Developed and deployed a live Flask-based reporting dashboard, reducing data latency by 25% while visualizing real-time market fluctuations.
- Built automated data pipelines to analyze autonomous vehicle logs, classifying asset health metrics across 1,000+ data points to map system operations.

PROJECTS

AI-Powered Predictive Maintenance & SCADA Analytics Dashboard

- Designed an intuitive visualization interface and deployed a real-time fault prediction dashboard, achieving a 92% accuracy rate in identifying industrial machinery anomalies.
- Integrated predictive models with SCADA systems, translating raw logs into automated operational metrics that cut manual engineering reporting time by 30%.

AgriVizio AI – Crop Yield & Analytics App

- Architected multi-threaded data processing workflows to handle 5GB+ of drone imagery and regional datasets for predictive regional yield modeling.
- Synthesized 3 distinct data streams (soil, weather, crop type) to automate analytical recommendations, optimizing localized farm management workflows.

ACHIEVEMENTS & AWARDS

- 1st Prize Winner: Clinched first place in the VISAI 2025 International Project Competition under the Industry Problem Statement category for operational dashboard analytics.
- Honorable Mention Award: Achieved at the IEEE YESIST'12 International Project Contest 2024 held in Tunisia, North Africa.
- Global Top 5% Badge: Validated Microsoft PowerPoint and presentation badge, placing in the top tier out of 11.3 million global participants.
- NPTEL Discipline Stars: Awarded by NPTEL for academic excellence in advanced analytics disciplines (January – April 2026).
- Inspire Innovator's Arena Challenge: Surpassed 78% of international participants in innovation and analytical problem-solving.

CERTIFICATIONS

- NPTEL Certification: ELITE + SILVER in The Joy of Computing Using Python (Jan - Apr 2026)
- NPTEL Certification: ELITE + SILVER in Introduction To Industry 4.0 And Industrial Internet Of Things (Jan – Apr 2025)
- NPTEL Certification: ELITE in Privacy and Security in Online Social Media (Jan – Apr 2025)
- Intellectual Property UTSAV Masterclass: Completed the analytics and IP strategy series organized by AICTE & Ministry of Education's Innovation Cell (MIC) (April 2025)
