

# SUJAY S

## AI OPERATIONS & HUMAN DATA ANALYST

### SPECIALIZING IN AI TRAINING OPERATIONS, DATA QUALITY, PROCESS OPTIMIZATION & BUSINESS INTELLIGENCE

Tirunelveli, Tamil Nadu | +91 81221 41673 | info.sujays@gmail.com | [LinkedIn](#) | [GitHub](#) | [Digital Profile](#)

## PROFESSIONAL SUMMARY

AI Operations & Data Analyst with experience in AI training workflows, operational analytics, dashboard development, and reporting automation. Skilled in Python, SQL, Power BI, and process optimization to improve data quality, streamline workflows, and support business decision-making through KPI-driven insights.

## EDUCATION

### B.Tech Artificial Intelligence & Data Science (Minor Specialization in Business Intelligence)

Francis Xavier Engineering College, Tirunelveli

CGPA: 8.80/10.0 (Upto 6th Semester)

Expected Graduation: 2027

HSC | La Chatelaine Junior College, Chennai (CBSE) | 68.8% | Year of Completion: 2023

SSLC | La Chatelaine Junior College, Chennai (CBSE) | 79.4% | Year of Completion: 2021

## TECHNICAL SKILLS

**Data & AI:** Python, SQL, MySQL, Power BI, Advanced Excel, Pandas, NumPy, Predictive Analytics

**AI Operations:** AI Training Pipelines, Data Quality, Dataset Validation, Reporting Automation, KPI Tracking

**Operations:** Process Optimization, Workflow Management, Cross-Functional Collaboration, Stakeholder Management

## PROFESSIONAL EXPERIENCE

Srishti Innovative PVT. LTD | Thiruvananthapuram, India

AI + IoT Intern

December 2025 – January 2026

- Developed AI-driven analytics workflows using predictive machine learning models, improving forecasting accuracy by 14% while maintaining high-quality structured datasets.
- Designed automated operational dashboards and reporting systems that reduced reporting latency by 25% and enabled real-time KPI tracking for stakeholders.
- Built scalable data pipelines processing 1,000+ operational data points with automated validation checks to improve data consistency and support business decision-making.

## PROJECTS

### AI-Powered Predictive Maintenance & SCADA Analytics Dashboard

- Developed a real-time operational dashboard integrating industrial sensor data to monitor equipment health, automate reporting, and improve maintenance decision-making.
- Built automated KPI dashboards that reduced manual engineering reporting by 30% through workflow automation.

### AgriVizio AI – Crop Yield & Analytics App

- Designed scalable data processing workflows managing 5GB+ agricultural datasets while maintaining data quality and operational efficiency.
- Integrated multiple structured datasets to generate automated recommendations supporting farm management decisions.

## OPERATIONAL HIGHLIGHTS

- Automated reporting workflows reducing manual effort.
- Developed KPI dashboards for operational decision-making.
- Improved data quality using automated validation pipelines.
- Collaborated across technical teams to streamline AI workflows.
- Managed large structured datasets supporting predictive analytics.

## ACHIEVEMENTS & AWARDS

- 1st Prize Winner:** Clinched first place in the VISAI 2025 International Project Competition under the Industry Problem Statement category for operational dashboard analytics.
- Honorable Mention Award:** Achieved at the IEEE YESIST'12 International Project Contest 2024 held in Tunisia, North Africa.
- Global Top 5% Badge:** Validated Microsoft PowerPoint and presentation badge, placing in the top tier out of 11.3 million global participants.
- NPTEL Discipline Stars:** Awarded by NPTEL for academic excellence in advanced analytics disciplines (January – April 2026).
- Inspire Innovator's Arena Challenge:** Surpassed 78% of international participants in innovation and analytical problem-solving.

## CERTIFICATIONS

- NPTEL Certification: ELITE + SILVER in The Joy of Computing Using Python (Jan - Apr 2026)
- NPTEL Certification: ELITE + SILVER in Introduction To Industry 4.0 And Industrial Internet Of Things (Jan – Apr 2025)
- NPTEL Certification: ELITE in Privacy and Security in Online Social Media (Jan – Apr 2025)
- Intellectual Property UTSAV Masterclass: Completed the analytics and IP strategy series organized by AICTE & Ministry of Education's Innovation Cell (MIC) (April 2025)

## TOOLS

- Python | SQL | Power BI | Excel | MySQL | Git | GitHub | Google Workspace | MS Office

## CORE COMPETENCIES

- AI Operations | Human Data Management | Data Quality Assurance | Workflow Automation | Process Improvement | Business Intelligence | Dashboard Development | Operational Reporting | KPI Monitoring | Cross-functional | Collaboration | Stakeholder Communication | Documentation | Project Coordination | Decision Support | Problem Solving
